HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and in convenient, safe and secure.
It is easy to change to the style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO JUNE 19.

Washington News.

WASHINGTON, June 19.—The Bricklayer's Union expelled six members because they persisted in working with the two colored bricklayers in the Washington Navy Yard.

Reports received from the revenue officers of East Tennessee, North Carolina and the border counties of Virginia, have communicated intelligence of the seizure and destruction of sixty illicit distilleries within a few months past. The work was rendered exceedingly difficult and dangerous, owing to the resistance of the distillers and the desperate character of those engaged in the business. Gen. Sherman has directed the military to render all assistance in their power to the revenue officers.

In consequence of more difficulty encountered by revenue officers in Philadelphia in attempts to suppress numerous contraband distilleries, application has been made to the Secretary of the Navy for a squad of marines. The Attorney General directs the U. S. Marshal there to contribute his aid to the local constabulary.

New York News.

NEW YORK, June 19.—In the District Circuit Court, in the case of W. S. Smithson vs. Edwin Maston, action for $50,000 for false arrest and imprisonment, Judge Hughes filed a motion for the inspection of the orders, letters and documents referred to in the pleas of the defendant. The Judge will reconsider his decision.

The cabinet makers are on a strike. They had a meeting last night, at which they had a regular fight. One man was badly hurt.

The President dines to morrow with A. T. Stewart. Ex-Governor Morgan and Gen. Dix were among his callers to day. President Grant remains here till Monday to avoid visitors. Gen. Sherman is also here.

The funeral services of Henry J. Raymond are appointed for Monday afternoon in the church on the corner of University Place, 10th street.

Recruiting for the Cuban army is reported as quite brisk in this vicinity. It is considered certain that some troops will soon leave the city. The men enlisted in Philadelphia number only 400 and have not yet gone away, as their vessel is undergoing repairs.

The Swedenborgian Convention adjourned today. Their next meeting will be at Philadelphia next June.

The contract between the New York and western associated press has been extended for one year.

A freight train of eleven cars ran through an open draw into the Passaic last night. All the passengers on the train escaped.

The school ship *Saratoga* from Havana, arrived at the lower bay yesterday, having on board a number of cases of yellow fever. Three deaths occurred at Havana, and one officer and two men died during the passage from Key West. She had on board sixteen patients in different stages of the disease, who have been removed to the hospital ship. The *Saratoga* is a sailing vessel, and has a crew of 204 men.

Cincinnati.

CINCINNATI, June 19.—The trains will soon mence their regular trips from Covington to Louisville.

Two painters fell from a scaffold forty feet high to-day. One was instantly killed and the other fatally injured.

The Republican primary election for delegates to the State Convention was almost unanimous in favor of the re-election of Hayes as Governor.

Boston Dispatch.

BOSTON, June 19.—The bill before the Massachusetts legislature giving aid to the Massachusetts Railroad has been reordered to the next legislature. The bill to aid the construction of the Boston and Hartford Railroad has passed to engrossment by 127 to 97.

The closing performances of the Peace Jubilee were given to-day by from 7,000 to 9,000 school children, attracting a large and delighted audience. Ole Bull played a solo and Parepa Rosa and Adelaide Phillips sang a duet. The closing piece was the 100th Psalm, sung by the children, the audience joining. Several children were overcome by heat and excitement.

Cuban Affairs.

HAVANA, June 19.—The volunteers are alarmed at the announcement that the new Captain General de Roda would bring from 2,000 to 4,000 troops, and they are consulting their comrades. The Spanish Junta have prevailed upon the acting Captain General, Espinar, to telegraph to Madrid that more troops are needed in the island, as it is feared that De Roda would use these troops against the volunteers. A report having been received that no more troops will be sent, the volunteers have become quiet. They expect to be able to force De Roda into the adoption of their programme, ordering him from power before reinforcements can reach him.

NEW YORK, June 20.—The New York *World's* Havana letter says that General Jordan's expedition has been highly successful after landing as its most sanguine friends could reasonably expect.

A number of Spanish war vessels have been cruising in the Bay of Nipe, and for the present filibusters are advised not to attempt further landings there.

Tennessee Affairs.

NASHVILLE, June 19.—H. H. Harrison, late Judge of the Supreme Court of Tennessee, announces himself a candidate for the State Senate. He declares himself in favor of calling a convention by the next Legislature to remove political disabilities from all white citizens and amend the constitution so as to secure the right of suffrage to the colored men for all future time. The colored men now vote on the authority of a law of the Legislature, but that right is deduced from the State Constitution. He favors the ratification of the 15th amendment.

A new St kes newspaper will be issued next Monday.

Advices from East Tennessee indicate that Stokes will carry that section by a large majority. Senter will carry Middle and Western Tennessee, but only on thorough registration heretofore, prevented by the refusal of the registrars to comply with the law, can elect him.

Southern Crops.

This great triumph is not so much a triumph of the Ministry as of the power of public opinion and the machinery of the Constitution. Looking back into the history of the question it is impossible not to be impressed with the fact that England is, above all things, well governed. This is the second danger that has been removed that arose in a mistaken policy. The measure is upheld by the whole people. The evil was endured through the languor of public opinion, but the minds and consciences of people at length became aroused and the public instantly felt.

The *Post* says this great debate must increase the people's estimation of the House of Peers. Their judgement has furnished additional proofs of the utility of the upper House. An analysis of the vote shows that the Archbishop of Dublin and fifteen Bishops voted against the second reading, the Bishop of St David's in favor and that the other prelates abstained from voting.
